Noni·B

Annual Report 2010

Noni·B

Noni B Limited is one of Australia's leading fashion retailers, with 213 stores covering every state and territory.

The company has two fashion labels – **Noni B** & **Liz Jordan** – and offers stylish, contemporary designs inspired from around the world.

Noni B was founded in 1977 and listed on the Australian Securities Exchange in 2000.

Today it has more than 1,500 shareholders, over 1,000 staff and an industry-wide reputation for looking after both its staff and its customers.

Chairman's Report

We increased our cash flow, paid off all our bank debt, improved our profit margins, strengthened our balance sheet and were able to report a 68 per cent increase in net profit.

Over the past year we have made significant progress with improving our business to overcome some of the toughest trading conditions in Noni B's history.

Tight controls

We improved our planning processes, tightened control of expenses, carefully managed stock levels and resisted the temptation to discount heavily to increase sales, confident that we already offer excellent value. As a result we increased our cash flow, paid off all our bank debt, improved our profit margins, strengthened our balance sheet and were able to report a 68 per cent increase in net profit.

A year ago we decided to forgo paying a final dividend, preferring to re-invest the funds in our business. I am pleased to report that our caution paid off, and this year we were in a position to reinstate fully franked dividends, paying nine cents per share compared with two cents the previous year.

Customer focus

We believe our designer label, Liz Jordan, which is exclusively at Noni B, has been successful in attracting a broader range of customers to our stores. Our Noni B label has also been updated to reflect the fashions that our traditional customers want. Many women now appreciate that we offer a fit and shape that suit them, as well as exceptional style, quality, service and value.

Innovation

We recognise that we need new ideas and that all our people are capable of helping us improve. We therefore introduced specific training for managers on how to encourage innovation as well as in-house training that gives our sales people externally recognised qualifications. As a symbol of the importance we place on new ways of thinking, we offered an award for innovation and reviewed all our systems to facilitate suggestions that would help us improve everything we do.

The Chairman's Award for Innovation "anything that improves anything" is now an annual highlight on Noni B's calendar. On page 7 is a photograph of this year's winner, Fiona Walsh, whom I congratulate for developing in her own time a new approach aimed at improving our stock control.

Diversity

New reporting regulations for ASX companies are being introduced to encourage companies to introduce diversity at all levels of the organisation. We believe diversity is very important in enhancing our ability to make the best decisions, and our board charter already states that the composition of the board should reflect diversity in skills, experience, age and gender. Currently 40 per cent of both board and executive committee members are women, including Ann Phillips who was recently promoted to the role of chief financial officer and company secretary.

All our people can justifiably be proud of their efforts in 2009-10 in steering our company through challenging conditions. I particularly thank our managers and my fellow directors, whose passion about providing every customer with a great shopping experience makes Noni B a rewarding place to work. I also thank our shareholders, who have supported us through the year.

Outlook

Our sales staff have viewed our summer ranges and believe they are the best we have offered. We are a much more competitive retailer with a strong customer focus. As a result, although the economic environment is still uncertain, we are confident we have a solid business that will rebound as consumer confidence improves.

Lynn Wood
Chairman

Joint Managing Directors’ Review

We are expanding awareness of, and demand for, our Noni B and Liz Jordan labels among a wider and growing group of customers.

With challenging trading conditions throughout 2009-10, our focus was both on carefully managing the shop floor and on progressing our three year plan to make Noni B the favourite fashion store for more and more customers. This includes increasing our share of the fashion market through broadening our customer base, and positioning the company to take advantage of opportunities ahead.

Overall sales were flat compared with 2008-9, when we benefited from the government stimulus packages, although average spend per customer increased. Sales during the post-Christmas period were down slightly and a warmer-than-usual autumn delayed purchases of our winter ranges. Given these factors, we are pleased that sales were steady and our customers continued to see value in our fashion.

We focused on margin rather than volume and our EBITDA margin increased to 8.1 per cent from 6.5 per cent of sales, helped by tight inventory control that enabled us to avoid the more aggressive discounting that took place across the retail sector. Operating costs were lower following the previous year’s restructuring and through increases in efficiency throughout the business; these many small improvements, added together, made a significant impact on our result. Importantly, operating cash flow increased to $9 million from $6 million in 2008-9.

Investing in our people, our brand and our stores

Noni B’s 213 stores, covering all states and territories, are one of our company’s core strengths. For the vast majority of Australia’s population, a Noni B shopping experience is within convenient reach.

During the year we opened five new stores and closed six, including three clearance stores that were no longer required. New stores were opened in Devonport, Tasmania; Hallett Cove, South Australia; Wollongong, NSW; and Townsville and Victoria Point, Queensland; and we also relocated our store in Hobart’s central business district.

We are highly selective in choosing sites and negotiating lease renewals, and we have already confirmed four new stores to be opened before Christmas, with one each in the Sydney and Perth central business districts. Our target remains at least 250 stores.

We continued to invest in maintaining the loyalty of our existing customers through personal service and stylish fashion, while winning new customers by broadening awareness of our Liz Jordan designer label, exclusively available at Noni B. New in-store visual merchandising emphasised Liz Jordan garments and was aimed at attracting customer traffic with smart promotions, such as partnering with cruise operator P&O, rather than with discounts. There are signs already that new customers are visiting our stores.

Our store managers and staff are critical in building strong relationships with our customers. We provide them with regular training, and their feedback on our fashion, merchandising and systems enables us to maintain Noni B’s reputation for high standards of quality, value and service. This has helped us to retain and expand our customer base at a time when consumers have been particularly selective.

Well positioned for the future

In 2010-11, we will aim to strengthen even more our relationships with our customers and to keep winning new ones, providing stylish fashion that they desire. We will also continue to expand awareness of, and demand for, our Noni B and Liz Jordan labels among a wider and growing demographic.

While we expect consumer confidence to improve, we remain cautious and will continue to review every aspect of our business to ensure it is operating as efficiently as possible and Noni B is positioned to make the most of emerging opportunities. Our summer ranges were launched recently and we have already received positive feedback.

We thank the 1,048 members of our Noni B family for their hard work and dedication in a difficult year. Their talent and passion for the business are a great inspiration for us and, as a result of their efforts, Noni B is a significantly stronger company than a year ago.

Our strategy is also about empowering every employee to seek improvements in every aspect of our business.

Our people are our greatest asset

Noni B is all about people - our team members, our customers and our shareholders.

Our customers are our guests when they enter a Noni B store; we listen to them so we can create a fashion experience that will win their loyalty. You can read what our customers think of us at http://www.nonib.com.au/your_voice.

Our reputation with our customers depends largely on our employees, and we continue to invest in developing their skills. Store employees, including casuals, undergo extensive role-specific training each quarter, with more intensive programs for managers.

After reviewing Noni B's Equal Opportunity Women Agency (EOWA) report this year, in which we achieved the highest rating, a senior member of EOWA commented favourably on our initiative to help our more experienced employees, whose many years of retail experience are finally being rewarded with an externally recognised qualification.

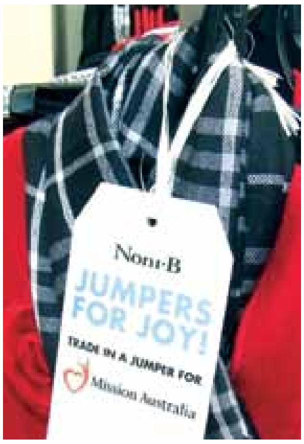
We also assist employees who have family responsibilities, an important consideration as most of our employees are women. For example, two local store managers who chose 24 months' maternity leave have returned to work with flexible hours for two days a week. Their experience is invaluable as casual training coordinators.

Building closer relationships with our communities is also important, whether through local events or supporting Mission Australia with our 'Jumpers for Joy' program which involves collecting warm clothing during winter from our customers for those in need.

All members of Noni B's board have worked in the retail sector. The executive committee, too, combines many years' retail experience and brings together all facets of our business, including buying, marketing, store operations, human resources, finance and administration. Together, they contribute to the company's strategic direction and sound management.

Our joint managing directors focus on both the shop floor and the ever-changing retail environment. James is fully engaged with managing Noni B's store operations, buying and marketing, while David concentrates on the company's business strategy, property negotiations, finance, information technology, investor relations and administration.

Our shareholders are also part of our team as they share the risk and rewards of the business. Looking after shareholders' investment is a responsibility we respect.



Top: Mission Australia Partnership.
Bottom: Chairman's Award for Innovation (Lynn Wood and Fiona Walsh).

Our new mantra, 'Noni B now isn't the Noni B you knew' reflects the progress we have achieved this year, and is part of our marketing strategy next year.

It's also about our products

Quality is non-negotiable at Noni B. We partner with our suppliers to offer stylish, contemporary designs inspired from around the world, using the best performing fabrics. Our aim always is to provide clothes that fit and inspire women who want to step out and feel great, so they come back to Noni B again and again.

'Noni B now isn't the Noni B you knew'

Two years ago we mapped out a new strategy to broaden Noni B's appeal and become the fashion store of choice for the 40+ woman. Since then it has become clear that our exclusive Liz Jordan designer label is appealing to many new customers. This is reflected in our new slogan 'Noni B now isn't the Noni B you knew' that is a key part of our marketing plan for 2010-11.

Our strategy is twofold. First, we look after existing customers and use our million plus loyalty program database to communicate directly with them. It is critical in tough trading conditions to engage directly with customers through different channels. Second, we aim to win new customers through our designer Liz Jordan range and in-store presentation.

But we can always do better

We encourage every employee to consider how to improve all aspects of our business. Lynn Wood refers on page 2 to the chairman's innovation award, which recognises the very best ideas on how to make Noni B better at what we do.

By trying to improve every detail – ensuring the highest quality for our garments, strengthening relationships with our suppliers, tightening inventory control and providing personal service in our stores – we have protected our brand during the downturn. At the same time, we have been able to re-position the company to win new customers as consumer spending recovers.

National network

Noni B has a presence in every major population centre in Australia. Our 213 stores give us access to millions of customers from Darwin to Dandenong and Bundaberg to Bunbury.

We believe we can grow to at least 250 stores over the next few years as we broaden our appeal. We proudly welcome our newest store, opening in late October 2010 at Westfield Sydney in the heart of the city's central business district.

He is responsible for strategy, finance, administration, information technology, distribution, property and investor relations. Since joining Noni B he has held roles as chief financial officer and company secretary, property and marketing manager and general manager of retail operations. He is chairman of the executive committee.

Previously, David held several positions within the Lend Lease group in finance and property related roles. He has a Bachelor of Economics degree from the University of Sydney and is a CPA. He is an affiliate of Chartered Secretaries Australia and is a graduate of the Australian Institute of Company Directors, having been awarded a Company Directors Course Diploma with Order of Merit in 2010.

James Kindl
Joint Managing Director

James Kindl joined Noni B in June 1992 and has been a director since May 1998. He has been Joint Managing Director of Noni B since April 2008. He is responsible for store operations, buying and marketing. James has previously held the roles of accountant, buying controller, general manager buying and marketing and general manager Noni B stores. He is a member of the executive committee.

He has a Bachelor of Economics degree from the University of Sydney. Prior to joining Noni B, he was employed by the international chartered accounting firm KPMG, and by Coca-Cola Amatil Limited.

Company Secretary

Ann Phillips
Chief Financial Officer and Company Secretary

Ann Phillips joined Noni B in October 2008 and in August 2010 was appointed chief financial officer and company secretary. Ann has more than 25 years experience in finance and accounting. She has a Bachelor of Business degree from University of Technology in Sydney, is a member of CPA Australia, a Certificated member of Chartered Secretaries Australia, and a member of the Australian Institute of Company Directors.

Independent Directors

The directors considered by the board to be independent directors are Lynn Wood and Joycelyn Morton.

In determining whether a non executive director is considered by the Board to be independent, the following relationships affecting independence will be taken into account:

1. whether the director is a substantial shareholder of the Company or an officer of, or otherwise associated directly with a substantial shareholder of the Company (as defined in section 9 of the Corporations Act);
2. whether the director is employed or has been employed in an executive capacity by the Company or another group member and there has not been a period of at least three years between ceasing such employment and serving on the board;
3. whether the director is or has been, within the last 3 years, a principal of a material professional adviser or a material consultant to the Company or another group member, or an employee materially associated with the service provided;
4. whether the director is or has been within the previous three years been employed by, or a partner in, any firm that in the past three years has been the Company's external auditors;
5. whether the director is a material supplier or customer of the Company or an other group member, or an officer of or otherwise associated, directly or indirectly, with a material supplier or customer;
6. whether the director has a material contractual relationship with the Company or another group member other than as a director of the Company; and
7. whether the director is free from any interest and any business or other relationship which could materially interfere with the director's ability to act in the best interests of the Company.

Performance Evaluation of Directors

1. A performance evaluation for the board and its members has taken place during the reporting period.
2. The performance evaluation of the board and its members was conducted in accordance with clause 7 of the Board Charter.
3. An internal board review was undertaken in December 2009.

Principal Activities

The principal activities of the consolidated entity constituted by the company and the entities it controlled during the financial year were the retailing of women's apparel and accessories.

There were no significant changes in the nature of these activities during the financial year.

Consolidated Operational Results

The consolidated profit of the consolidated entity for the financial year ended 27 June 2010 after providing for income tax was $3,867,000 (2009: $2,296,000).

Dividends Paid, Declared Or Recommended

Dividends paid or declared for payment are as follows:

	$'000
Fully franked interim ordinary dividend paid on 28 April 2010 of 6 cents per share	1,926

In addition to the above dividends, since the end of the financial year, the directors have declared the payment of a final ordinary dividend of $962,704 (3 cents per share) to be paid on 20th October 2010 out of retained earnings at 27th June 2010.

Operational and Financial Highlights

Noni B operated 213 women's fashion stores throughout Australia during the 2009/2010 year. It has two fashion labels, Noni B and Liz Jordan and over 1,000 dedicated, talented and passionate team members.

The past year has been one of consolidation of the business. Management had a strong focus on strategy and core strengths of the company. Noni B has always been known for our personal customer service and superior cut and fit that only comes from understanding our customers. This has helped Noni B through the difficult trading environment and allowed us to avoid the industry wide discounting that occurred during the year.

In June 2009, Noni B implemented an action plan to address the fall in profit caused by the poor economic conditions experienced at that time. This plan included: personnel redundancies; cancellation of the annual conference; new supplier payment terms; general expenses reduction and the search for efficiencies throughout the business.

On the trading front, management took a conservative view, knowing that FY2009/2010 was the year without the federal government stimulus package and that market conditions would be challenging. Inventory was carefully controlled and the focus was on margin rather than volume. The marketing team created promotions that drove customer traffic while avoiding discounting, which was challenging given the high amount of price reductions offered by other fashion retailers.

The result of these actions was that profit after tax for FY2010 increased by 68.4% to $3,867,000 (FY2009: $2,296,000).

A focus on cash-flow management ensured we were able to repay our $3,000,000 debt early in the financial year and we remain debt free. Cash increased to $4,420,000 as at 27 June 2010 from $2,964,000 at FY2009. Cash flow from operating activities increased from $5,955,000 in FY2009 to $9,127,000 this year.

Total sales for FY2010 were $117,368,000 compared to $118,153,000 last year. While overall comparative store sales decreased by 0.5% nationally, some regions experienced growth. The Australian Capital Territory stores topped the list and Western Australia and Northern Territory stores also achieved an increase. All other States had minor falls in comparative sales.

Despite the flat sales FY2010 EBITDA increased 24.1% on last year, to $9,485,000 (FY2009 $7,640,000). EBITDA margin was 8.1% of sales (FY2009 6.5%).

Store numbers fell by one for the period. 5 new stores were opened and 6 closed. The 5 new stores focused on appropriate opportunities to open in locations sought after by Noni B. These were Devonport in Tasmania, Victoria Point in Brisbane, Hallett Cove in Adelaide, The Willows in Townsville and Wollongong NSW. A major relocation in the Hobart, Tasmania CBD also occurred. The closed stores included 3 clearance outlets, one centre closed for redevelopment and two stores closed as we were unable to negotiate suitable commercial terms with the centre owner.

The strategic direction set in place in early 2009 was continued in FY2010 with the focus being on taking care of our existing customers and winning new ones. Noni B's vision is to become the best fashion retailer in Australia for our customers. This is being achieved through smarter management of the 1,000,000 plus customer database and increased branding of our designer label, Liz Jordan, which is exclusively available at Noni B.

(a) Long term cash bonuses paid arose from payout of balances of long term incentives. Remuneration reports in prior years have included accruals under a now terminated scheme whereby bonuses were sacrificed in return for notional shares. Entitlements also included the value of notional dividends associated with the notional shares. No further amounts are payable under this scheme.

(b) Long service leave for David Kindl includes impact of restatement of liability arising from a change of mix between cash and non cash components of remuneration package

(c) Appointed CFO and Company Secretary 17 August 2010, previously GM Finance and Administration

(d) Cash bonuses accrued were not based on group performance, but are an acknowledgement of the effort contributed by the senior management team over the prior 2 years, during which there have been no increases in fixed remuneration.

Remuneration Report (continued)

Remuneration Policy

Non-executive directors

Non-executive director remuneration is set by the Board's Remuneration Committee and determined by comparison with the market, based on independent external advice with regard to market practice, relativities, and director duties and accountability. Company policy is designed to attract and retain competent and suitably qualified non-executive directors, to motivate these non-executive directors to achieve Noni B's long term strategic objectives and to protect the long term interests of shareholders.

Fee Pool
Non-executive directors' fees are determined within an aggregate non-executive directors' fee pool limit, which is periodically approved by shareholders. At the date of this report the pool limit was set at $350,000. During the financial year ended 27 June 2010, $260,000 of the fee pool (74.2 %) was utilised.

Fees
The non-executive directors' base fee has been set at $65,000 per annum. The chairman's base fee has been set at $130,000 per annum. During the financial year ended 27 June 2010 the company held a total of 14 formal meetings, including committee, board and shareholder meetings.

Equity participation
Non-executive directors may receive options or shares as part of their remuneration, subject only to shareholder approval. No options have been issued to a non-executive director this year and none are held by a non-executive director at the date of this Report. Further, subject to shareholder approval, non-executive directors may opt each year to receive a percentage of their fees in Noni B shares, which are acquired on-market at market price.

Retiring Allowance
No retiring allowances are paid to non-executive directors.

Superannuation
Noni B pays the statutory superannuation guarantee charge in relation to its eligible non-executive directors out of total fees paid (i.e. fees quoted are inclusive of superannuation).

Executive directors and senior executives

Noni B's overall group remuneration policy is set by the Board's Remuneration Committee. The policy is reviewed on a regular basis to ensure it remains contemporary and competitive.

For the specified executives, the policy is intended to be consistent with the remuneration recommendations and guidelines set down in Principle 8 of the Australian Securities Exchange's "best practice" corporate governance guidelines. Broadly, Noni B policy is intended to ensure:

- for each role, that the balance between fixed and variable (performance) components is appropriate having regard to both internal and external factors;
- that individual objectives set will result in sustainable beneficial outcomes;
- that all performance remuneration components are appropriately linked to measurable personal, business unit or group performance; and
- that total remuneration (that is the sum of fixed plus variable components of the remuneration) for each executive is fair, reasonable and market competitive.

Noni B's achievement of these objectives is checked on a regular basis using independent external remuneration consultants.

Components of executive remuneration
Generally, Noni B provides selected senior executives with three components of remuneration, as follows:

- fixed remuneration which is made up of basic salary, benefits (such as a company car), superannuation and other salary sacrifices;
- short term incentives (STI) – paid in cash, directly earned upon the successful achievement of specific financial and operational targets. A portion of this STI may be provided in Noni B shares subject to service and/or performance conditions. All STI awards are based on performance hurdles which are set and reviewed by the Remuneration Committee annually; and
- long term incentives (LTI) – provides selected and invited senior executives with the right to acquire shares, only where specific future service requirements and future financial and operational targets that improve shareholder returns have been exceeded. Performance hurdles are set and reviewed by the Remuneration Committee annually.

Fixed Annual Remuneration
Senior executives are offered market competitive base salary (including benefits). Base salary is reviewed on a regular basis against market data for comparable positions provided by independent remuneration consultants and selected survey data. Company performance is also taken into account.

Adjustments to base salary are made based on promotion or significant role responsibility changes, pay relativities to market and relative performance in the role. There are annual reviews of the base salary and contractual guarantees that it will not be reduced.

Short Term Incentives
Company policy on short term incentives is that each year a bonus scheme is determined that focuses on the Company objectives for that year. For the current year, a bonus is payable up 20% of Total Fixed Remuneration on achievement of Company objectives.

The objective of the reward scheme is to both reinforce the key financial goals of the Company and to provide a common interest between management and shareholders.

Long Term Incentives
Noni B's long-term executive incentive policy focuses on corporate performance and the retention of key senior executives. Details of Noni B's various long term incentive schemes, including EOP, ESP, DESP (for executives) are set out in Note 29 of the Annual Report.

Remuneration Report (continued)

Remuneration Policy (continued)

Under the DESP selected and invited senior executives have been offered Noni B shares subject to a range of service and performance conditions.

Under the NDEIP, executive directors may be entitled to cash payments under conditions similar to the DESP for executives.

During the year ended 27 June 2010, no offers were made for additional participation in the DESP or NDEIP. However, during the financial year ended 28 June 2009, selected executives were offered participation in the DESP.

Details of NDEIP and DESP are set out below.

Notional Deferred Executive Incentive Plan (NDEIP)
Executive directors may be entitled to payments under a long term incentive scheme, the Notional Deferred Executive Incentive Plan.

The NDEIP provides for cash payments for each executive director of up to $875,000 in instalments on meeting service and performance conditions as described below.

Service
Each instalment will be payable, subject to continuing employment by the company at the First Available Date for each instalment.

Instalment	% of total payable	First Available Date	Last Available Date
1	33.3%	1 September 2011	1 September 2013
2	33.3%	1 September 2012	1 September 2013
3	33.3%	1 September 2013	1 September 2013

Performance
Each instalment will be payable, subject to the company meeting performance hurdles in terms of Earnings per Share (EPS) Compound Annual Growth Rate (CAGR).

Tranche	% of total payable	EPS CAGR % Threshold 5% per annum (20% vesting) % of Total payable	EPS CAGR% Target 20% per annum (100% vesting) % of Total Payable	Measurement Period (Base Year: EPS for FY 2007/08)
1	33.3%	6.67%	33.3%	1 July 2008 to 30 June 2011
2	33.3%	6.67%	33.3%	1 July 2008 to 30 June 2012
3	33.3%	6.67%	33.3%	1 July2008 to 30 June 2013

The Measurement Period for:

- Tranche 1, is three financial years commencing July 2008 and ending June 2011
- Tranche 2, is four financial years commencing July 2008 and ending June 2012; and
- Tranche 3, is the five financial years commencing July 2008 and ending June 2013

EPS CAGR growth over the relevant periods shall be calculated from the EPS for the base year from 1 July 2007 to 30 June 2008 for the continuing business (22.0 cents per share) as follows:

- If EPS CAGR is below 5% per annum over the Measurement Period for each tranche, then none of the instalments for each tranche will vest.
- If EPS CAGR is 5% per annum over the Measurement Period for each tranche, then the value of the amount payable will be 20% of the total payable for each tranche.
- If EPS CAGR is greater than 5% per annum, but less than 20% per annum over the Measurement Period for each tranche, then the value of the amount payable for each tranche will be 20% plus an additional 5.33% for every complete percentage point above 5%.
- If EPS CAGR is greater than 20% per annum over the Measurement Period for each tranche, then the amount payable will be the total amount payable for each tranche.

Unpaid instalments from Tranche 1 or Tranche 2 will be added to the next instalment, where the payment will be subject to the performance hurdles for that tranche.

Any instalments unpaid as at the performance hurdle testing for Tranche 3 shall be subjected to immediate forfeiture.

Executive directors also receive a cash bonus under NDEIP. This bonus is calculated as the equivalent to dividends earned on 250,000 shares, payable upon declaration of dividends.

Deferred Employee Share Plan (DESP)
The Deferred Employee Share Plan (DESP) is a scheme where employees become entitled to shares subject to a range of service and performance conditions.

The fair value at grant date is independently determined using a Binominal Approximation Option Valuation Model that takes into account the exercise price, the term of the rights over shares, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the rights over shares.

No rights over ordinary shares in the company were provided as remuneration to any of the key management personnel of the company during the year ended 27 June 2010.

There are three grants of rights over shares for key management personnel which remain operative at 27 June 2010 as follows:

- Offer dated 23 April 2008 and subsequent offer dated 22 June 2009 (Service and performance conditions apply)
- Offer dated 23 September 2008 (Service conditions only apply)
- Offer dated 22 June 2009 (Service conditions only apply)

Details of these offers are set out on the following pages.

Alan Kindl, Betty Kindl, James Kindl and David Kindl entered into an agreement prior to listing of the company's shares on the ASX, which regulates their sale of shares in the company. If any one of them wishes to sell any of their shares in the company, they must offer those shares to the others before they sell those shares to any third parties.

Retiring Executive Director Benefits

No retiring allowances are paid to executive directors outside of statutory retirement benefits.

Directors' Meetings

The number of meetings of directors and of each board committee held during the financial year ended 27 June 2010 and the numbers of meetings attended by each director were as follows:

	Board Meetings		Audit and Risk Management Committee		Remuneration Committee

Indemnification and Insurance of Directors and Officers

The Company has entered into deeds with each of the directors under which the Company has agreed to indemnify the directors and the company secretary on a full indemnity basis and to the full extent permitted by law for losses or liabilities incurred as an officer of the Company.

During the financial year ended 27 June 2010, the company has paid an insurance premium in respect of a contract insuring each of the directors of the company named in this report, the company secretary, executive officers and directors of controlled entities, against all liabilities and expenses arising as a result of work performed in their respective capacities, to the extent permitted by law.

The amount of premium paid for each director and the company secretary was $3,991 in the financial year ended 27 June 2010.

Proceedings on Behalf of the Company

No person has applied for leave of court to bring proceedings on behalf of the company or intervene in any proceeding to which the company is a party for the purpose of taking responsibility on behalf of the company for all or any part of those proceedings.

The company was not a party to any such proceedings during the financial year ended 27 June 2010.

Share Options

No options have been granted to any individual since September 2001 and there are no outstanding option balances.

Non-Audit Services

The details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in Note 25 to the financial statements.

The directors are satisfied that the provision of non-audit services during the year by the auditor is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The nature and scope of each type of non-audit service provided by PKF means that the auditor's independence requirements under the Corporations Act 2001 were not compromised, for the following reasons:

- All non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor, and
- None of the services undermine the principles relating to auditor independence as set out in the Code of Conduct APES 110 Code of Ethics for the Professional Accountants issued by the Accounting Professional & Ethical Standards Board, including reviewing or auditing the auditors own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

To: The Directors
Noni B Limited

As lead auditor for the audit of Noni B Limited for the year ended 27 June 2010, I declare that, to the best of my knowledge and belief, there have been:

a. no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and

b. no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Noni B Limited and the entities it controlled during the year.

Corporate Governance Statement

1. Introduction

The Board of Directors of Noni B Limited is committed to high standards of corporate governance and supports the Australian Securities Exchange Corporate Governance Council's Corporate Governance Principles and Recommendations for Australian listed companies issued originally in March 2003 and revised in August 2007.

This Corporate Governance Statement was originally adopted by the Board on 23 June 2004 and was updated by the Board on 24 June 2009, and was reviewed and updated as appropriate for the relevant reporting period to 27 June 2010. It will be reviewed at least annually and further revised by the Board as required.

Companies are allowed the flexibility not to implement all of the Recommendations, provided they explain why they have not done so and what alternate approaches have been adopted. This is known as the 'if not, why not' approach.

The Board has determined whether, and to what extent, the Company may benefit from adopting the Recommendations and has, where appropriate, applied the principles of the Recommendations to the Company. The Board considers that some Recommendations are not appropriate for the Company and would not improve the efficiency or integrity of the Company's business.

This Corporate Governance Statement, referencing the Recommendations, is accessible from the Company's website www.nonib.com.au/governance.

In this Corporate Governance Statement, references to the "Managing Director" includes any Joint Managing Directors of the Company, references to "Directors" include any director of the Company and references to "Senior Executives" means the senior management team as distinct from the Board, being those who have the opportunity to materially influence the integrity, strategy and operation of the Company and its financial performance and includes, as the context requires, the executive directors, the Chief Financial Officer/Company Secretary and the general managers of the Company.

2. Principle 1: Lay solid foundations for management and oversight

The Board is responsible for seeking to increase shareholder value by establishing a reputation for consistent and sustained long-term profit growth.

The Board has adopted a Board Charter which formally sets out the functions and responsibilities of the Board and Senior Executives, and enables them to perform their role more effectively. The Board Charter creates a system of checks and balances to provide a balance of authority.

The four main responsibilities of the Board are:

1. setting the Company's strategy;
2. recruiting, appointing and monitoring the performance of the Managing Director;
3. ensuring that appropriate corporate governance and risk management policies are established and performance against those policies is monitored and assessed; and
4. ensuring that appropriate resources are available to Senior Executives to execute the Company's strategy and monitor performance.

More specifically, these responsibilities are set out in the Board Charter available on the Company's website www.nonib.com.au.

Performance evaluations for the Senior Executives have taken place in the reporting period in accordance with the process disclosed in the Board Charter.

3. Principle 2: Structure the board to add value

The Board currently consists of five directors. The five directors comprise an independent Chairman, one other independent director, a non executive director and two Joint Managing Directors. "Independent" means a non executive director who is independent of management and who is free of any business or other relationship that could materially interfere with the exercise of independent judgement. The specific criteria used to assess independence are set out in the Board Charter under the heading "Independent Director".

The independent directors are Lynn Wood and Joycelyn Morton.

None of the current independent directors have any of the relationships affecting independence referred to in the Board Charter (available on the Company website).

Recommendation 2.1 of the Recommendations recommends a majority of the Board should be independent directors. The Board does not currently have a majority of independent directors. The Board is of the view that Recommendation 2.1 is not appropriate for the Company at this time. The Board considers that the current directors of the Company possess the appropriate range of skills, experience and expertise to fulfill their responsibilities to the Company and its shareholders. The Board will continue to consider the need for the appointment of qualified independent applicants who possess the appropriate qualifications to serve as directors on the Board.

Details of the Directors in office at the date of this annual report, the period of office held by each director and the skills, experience and expertise relevant to the position of Director held by each of them as set out in page 12 of the Directors Report.

To assist directors in carrying out their duties effectively, any director may seek independent professional advice at the Company's expense. Prior written approval by the Chairman is required, but approval will not be unreasonably withheld. All directors are made aware of the professional advice sought and obtained.

Recommendation 2.4 is that a nomination committee be established. Given the size of the Company, a formal nomination committee has not been established. However, the objectives of such a committee are addressed in clause 7 of the Board Charter and the functions that would otherwise be undertaken by a nomination committee are undertaken by the Board.

Evaluation of performance

The processes for evaluating the performance of the Board, its committees and individual directors are set out in Section 7 of the Board Charter.

A performance evaluation of the board, its committees and its members was conducted in accordance with clause 7 of the Board Charter. This evaluation was conducted on an external basis in October 2008.

Regular assessments

The Board regularly assesses whether each non executive director is an independent director. Each non executive is required to provide to the Board all information that may be relevant to this assessment.

Independent Chairman

The Chairman of the Board is an independent, non-executive director of the Company.

Separate Chairman and Managing Director

The Chairman is currently an independent director and the roles of the Chairman and the Managing Director are not exercised by the same person.

Board Committees

To assist in the execution of the Board's corporate governance responsibilities, the Board has established two committees:

1. the Audit & Risk Management Committee – to help protect the integrity of financial reports; and
2. the Remuneration Committee – to help ensure that the Company remunerates fairly and responsibly.

Both of these Committees have an independent director as Chairman.

The current membership of the Board and the Audit & Risk Management Committee and the Remuneration Committee is set out in the table below:

Board Director	Board Member Type	Audit and Risk Management Committee	Remuneration Committee
Lynn Wood	Independent Chairman	Member	Independent Chairman
Joycelyn Morton	Independent Director	Independent Chairman	Member
Alan Kindl	Non Executive Director	Member	Member
James Kindl	Joint Managing Director		
David Kindl	Joint Managing Director		

For information concerning the Board's policy and procedure regarding nomination and appointment of directors, further details are available on the company website.

4. Principle 3: Promote ethical and responsible decision-making

The Board seeks to ensure that all directors, Senior Executives and employees of the Company act honestly, transparently, diligently and with integrity, striving to enhance the reputation and performance of the Company.

The Board seeks to ensure that the Company has regard to the reasonable expectations of its stakeholders, including shareholders, employees, customers, suppliers, creditors and the community in which the Company operates.

The Board has established a Code of Conduct setting out the Company's obligations to its stakeholders.

The Company's Policy & Procedures manual includes a range of documented policies and standards, including privacy, confidentiality, recruitment and equal employment opportunity. Together with the Code of Conduct, these policies and standards are reinforced by regular training programmes and monitoring of compliance and are equally applicable to the Company's directors and Senior Executives.

Dealings in the Company's Securities and associated products

The Company has adopted a securities trading policy for the Company's directors and Senior Executives.

Consistent with the law, directors, Senior Executives and employees must not trade directly or indirectly or procure others to trade in the Company's securities or associated products whilst in possession of unpublished price sensitive information.

Directors, Senior Executives and employees must not use inside information for personal gain.

Price sensitive information is information, usually about the Company or its intentions, which a reasonable person would expect to have a material effect on the price or value of Company securities.

Directors, Senior Executives and certain other employees are generally permitted to deal in the Company's securities in the six weeks following the announcement of the half yearly and annual results.

Permission to trade in the Company's securities outside these periods must be obtained from the Chairman.

A director must notify the Chairman, outside prescribed periods, of any proposed dealing in the Company's securities prior to transacting, followed with written and verbal confirmation of the trading detail to the Company Secretary, including any change in the director's (or related entities) legal or beneficial interest in the Company's securities so as to ensure compliance with the disclosure requirements of the ASX Listing Rules and the Corporations Act 2001.

More details are included at the company's website.

5. Principle 4: Safeguard integrity in financial reporting

The Board has established an Audit and Risk Management Committee. The roles and responsibilities of the Audit and Risk Management Committee are set out in the Audit and Risk Management Committee Charter.

The Audit and Risk Management Committee comprises three members, the majority of whom are independent directors. All of the members of the Audit and Risk Management Committee are non executive directors. The Chairman of the Audit and Risk Management Committee is an independent director and a qualified accountant and therefore satisfies Recommendation 4.2 for independence and appropriate technical expertise. Recommendation 4.2 also recommends that the Chairman of the Audit and Risk Management Committee not be the Chairman of the Board. The current structure complies with this recommendation.

During the Reporting Period the Audit and Risk Management Committee consisted of the following members, whose attendance at meetings of the committee is listed below.

Committee member	Number eligible to attend	Number attended
Joycelyn Morton (chairman)	3	3
Alan Kindl	3	3
Lynn Wood	3	3

As part of the Company's structure of financial review and authorisation, in accordance with the Corporations Act, both the Managing Director and Chief Financial Officer are required to provide a written statement to the Board that to the best of their knowledge and belief, the Company's financial records have been properly maintained, and its financial statements and notes present a true and fair view, in all material respects, of the Company's financial position and performance and are in accordance with relevant accounting standards.

This statement to the Board is underpinned by the requirement for appropriate Senior Executives to provide a signed letter of representation addressed to the Managing Director and Chief Financial Officer verifying material issues relating to the executive's area of responsibility and disclosing factors that may have a material effect on the financial results or operations of the Company.

External auditors

The Board seeks to ensure that audit quality and effective audit service is provided by a suitably qualified competent and independent audit firm and the Audit and Risk Management Committee regularly assesses this company's performance and independence. The Board ensures that the External Auditor is fairly rewarded for the agreed scope of the statutory audit and audit-related services.

The recommendation for the appointment of the external auditor is made by the Audit and Risk Management Committee after evaluation by that Committee taking into account expertise, experience, resources and reputation of proposed external auditors.

The rotation of the external auditor engagement partner every five years in accordance with the law is monitored by the Audit and Risk Management Committee.

6. Principle 5: Make timely and balanced disclosure

The Company has implemented a Continuous Disclosure Policy to ensure timely and continuous disclosure to the market of material information relating to the Company and to ensure that all stakeholders have an equal opportunity to access information.

The policy and practice of the Company reflects the ASX Listing Rules requirements and the requirements of the Corporations Act 2001 regarding continuous disclosure requirements and the process of notifying the market.

Details of the Continuous Disclosure Policy are included on the company's website.

7. Principle 6: Respect the rights of shareholders

The Company's communication policy is designed to empower shareholders by communicating effectively with them and by giving them access to balanced and understandable information on the Company. The Company is required under the Corporations Act 2001 and the Listing Rules of the ASX to keep the market fully informed of all information that could materially affect the value of its securities.

The Company is committed to ongoing communication across its entire shareholder base consisting of institutional investors, private and employee shareholders. This is achieved principally by the distribution of regular information updates to shareholders which consist of the following:

- the annual and half yearly financial results and report;
- relevant announcements released to the ASX;
- notice of meeting and explanatory material for the annual general meeting;
- the Chairman's and Managing Directors' address to shareholders;
- occasional letters from the Managing Director and Chairman informing shareholders of key matters of interest;
- any presentation to analysts; and
- an invitation to attend the annual general meeting, to ask questions of the Board and the External Auditor who is available to answer questions about the conduct of the audit, as well as the preparation and content of the External Auditor's report.

The Company currently uses its website via the "Investor Centre" page on the website to provide information to the Company's shareholders.

8. Principle 7: Recognise and manage risk

Risk Management and Oversight

The responsibility of risk management and oversight is co-ordinated through the Audit and Risk Management Committee, with Senior Executives.

The Senior Executives are responsible for designing, implementing and reporting to the Board on the adequacy of the Company's risk management and internal control system to manage the Company's material business risks. The Senior Executives report to the Audit and Risk Management Committee on the key risks faced by the Company and the extent to which they believe those risks are being managed. The Board requires management to report to it through the Audit and Risk Management Committee on whether the Company's material business risks are being managed effectively. Ordinarily this is done on a half yearly basis but it can be more frequently if required by the Audit and Risk Management Committee or the Board.

Although the Board has ultimate responsibility to satisfy itself each year, or more frequently where required, that the Senior Executives have developed and implemented for the Company a sound system of risk management and internal control, the Board delegates to the Audit and Risk Management Committee the detailed work required for this review. The Board reviews the detailed work done by and the recommendations of the Audit and Risk Management Committee.

Assurance

To encourage management accountability in this area, both the Managing Director and the Chief Financial Officer are required to provide a written statement to the Board that to the best of their knowledge and belief the declaration provided by them in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks. The Board acknowledges that due to its nature, this assurance cannot be absolute because of factors such as the need for the exercise of judgment, the use of sample based testing and inherent limitations in internal controls.

Sign off letters in relation to the material business risks identified in respect of the Company (including responses to all questions asked as part of such letters) are completed by all relevant general managers and key finance personnel on a half yearly basis. The letters are then reviewed by the Chief Financial Officer and the Company's external auditors as part of the Company's half-yearly reporting to the ASX and as part of the compliance with section 295A of the Corporations Act and Recommendations 7.2 and 7.3.

The key elements of the Company's policy on risk management are summarised as follows:

- Financial reporting – there is a comprehensive budget process with annual budgets approved and actual performance to budget monitored on a monthly basis.
- Departmental control – financial controls and procedures including information systems controls are set out in the Company's Procedure Manual and are built in to the key financial systems. Regular financial results and cash flow reports help recognise and manage risks. Senior Executives report to the Board regularly on material business issues including financial results.
- Investment and Capital expenditure – Senior Executives are provided with levels of delegated authority to incur day to day operational expenditure. All expenditure decisions exceeding such levels are approved by the Board. Major projects (legal and tax) are reviewed by external advisers, as required.

Internal Audit Function

The Board has determined, having regard to the size of the Company and its business model that the types of risks involved in the Company's business do not justify having a separate internal audit function.

The external auditor function is separate and independent of the above processes.

9. Principle 8: Remunerate fairly and responsibly

The Board has established a Remuneration Committee which comprises three members, two of whom are independent directors. The roles and responsibilities of the Remuneration Committee are outlined in the Company's Charter of the Remuneration Committee. The Remuneration Committee reviews the remuneration of the Directors and Senior Executives as well as the Company's human resources policies and makes recommendations to the Board.

Committee member	Number eligible to attend	Number attended
Lynn Wood (chairman)	1	1
Joycelyn Morton	1	1
Alan Kindl	1	1

Details about the Company's remuneration policy are discussed in the Remuneration Report set out on pages 14 to 23 the Company's Annual Report.

The Directors Report discloses the Directors, Non-Executive Directors and executives remuneration, benefits, incentives and allowances where relevant.

Notes to and forming part of the Financial Statements

Note 1. Introduction

The financial report covers the consolidated entity of Noni B Limited the company and controlled entities. Noni B limited is a listed public company incorporated and domiciled in Australia and is the ultimate parent entity of the group.

a. Operations and principal activities

The principal activities of the consolidated entity constituted by the company and the entities it controlled during the financial year were the retailing of the women's apparel and accessories.

b. Scope of financial statements

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards and Australian Accounting Interpretations, other authoritative announcements of the Australian Accounting Standards Board and the Corporations Act 2001.

The financial report of Noni B Limited and its controlled entities comply with all Australian equivalents to International Financial Reporting Standards (AIFRS) in their entirety ensuring that the financial statements and notes also comply with the International Financial Reporting Standards.

The financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

c. Currency

The financial report is presented in Australian currency.

d. Reporting Period

The financial report is presented for the year ended 27 June 2010. The comparative reporting period ended at 28 June 2009.

e. Registered Office and Principal place of business

10 Garling Road, Kings Park
NSW 2148, Australia.

f. Authorisation of financial report

The financial report was authorised for issue by the Directors on 18 August 2010.

Note 2. Summary of Significiant Accounting Policies

a. Overall Policy

The principal accounting policies adopted by Noni B Limited and its subsidiaries are stated in order to assist in the general understanding of the financial report.

b. Significant Judgement and Key Assumptions

The directors evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

Key Estimates

Impairment
The group assesses impairment at each reporting date by evaluating conditions specific to the group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates. Details of the impairment disclosures and key estimates are set out in Note 11(a) of the Financial Report.

No impairment has been recognised in respect of goodwill and brand names for the year ended 27 June 2010.

Customer Loyalty
The group provides for a customer loyalty provision for its loyalty events based on an estimate of the loyalty redemption by the loyalty customers. The estimate is based on historical experience and other factors relevant to customer spending.

c. Financial Assets and Financial Liabilities

Financial assets and financial liabilities are initially recognised at cost on the statement of financial position when the Company becomes party to the contractual provisions of the financial instrument.

A financial asset is derecognised when the contractual rights to the cash flows from the financial assets expire or are transferred and no longer controlled by the entity. A financial liability is removed from the statement of financial position when the obligation specified in the contract is discharged or cancelled or expires.

Upon initial recognition a financial asset or financial liability is designated as at fair value through profit or loss except for investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured.

The investments in subsidiaries that are not classified as held for sale or included in a disposal group classified as held for sale are accounted for at cost.

Financial liabilities comprising trade and other payables, provisions and borrowings are measured at amortised cost using the effective interest method.

Trade accounts payable represent the principal amounts outstanding at reporting date plus, where applicable, any accrued interest.

The amortised cost of a financial asset or a financial liability is the amount initially recognised minus principal repayments, plus or minus cumulative amortisation of any difference between the initial amount and maturity amount and minus any write-down for impairment or uncollectability.

d. Consolidation Policy

The consolidated financial report comprises the accounts of Noni B Limited and all of its controlled entities. A controlled entity is any entity controlled by Noni B Limited. Control exists where Noni B Limited has the capacity to dominate the decision making in relation to the financial and operating policies of another entity so that the other entity operates with Noni B Limited to achieve the objectives of Noni B Limited. A list of controlled entities is disclosed in Note 8 to the financial statements.

Note 2. Summary of Significiant Accounting Policies (continued)

All inter-company balances and transactions between entities in the consolidated entity, including any unrealised profit or losses, have been eliminated on consolidation. Where controlled entities have entered or left the consolidated entity during the year, their operating results have been included/ excluded from the date control was obtained or until the date control ceased.

e. Recognition Revenue

i. Sale of goods

Revenue from the sale of goods is recognised when all significant risks and rewards of ownership have been transferred to the buyer and when the other contractual obligations of the entity are performed.

ii. Revenue from rendering of services

Revenue from rendering of services is recognised when the outcome of a transaction involving the rendering of services can be estimated reliably and when the other contractual obligations of the entity are performed.

iii. Interest revenue

Interest revenue is recognised using the effective interest method. It includes the amortisation of any discounts or premium.

f. Leases

Lease assets, where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to entities in the consolidated entity were classified as finance leases. Finance leases are capitalised, recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual values. Leased assets are amortised on a straight-line basis over their estimated useful lives where it is likely that the consolidated entity will obtain ownership of the asset or over the term of the lease. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as an expense on a straight line basis over the lease term unless another systematic basis is more representative of the time pattern in which benefits are diminished.

Lease incentives under operating leases are recognised as liabilities. The incentives are recognised as a reduction of expenses on a straight line basis unless another systematic basis is more representative of the time pattern in which benefits are diminished.

g. Income taxes

Income taxes are accounted for using the comprehensive balance sheet liability method whereby:

- the tax consequences of recovering (settling) all assets (liabilities) are reflected in the financial statements;
- current and deferred tax is recognised as income or expense except to the extent that the tax relates to equity items or to a business combination;
- a deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available to realise the asset;
- deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability settled.

Tax Consolidation

The Company and its wholly owned Australian subsidiaries are part of a tax consolidated group under Australian taxation law. The Company is the head entity.

Effective 1 July 2005, the tax consolidated group has entered into a tax sharing and funding agreement whereby each company in the group contributes to the income tax payable based on each company's notional stand alone net income tax position for each year. The Company as head entity is responsible for recognising only the current tax assets and liabilities and related franking credits of the tax consolidated group whilst deferred tax assets and liabilities are recognised by each company member.

In addition, the tax funding agreement allows for the allocation of income tax liabilities between the member companies should the Company as head entity default on its tax obligations. However, any additional contribution made by each subsidiary will be, firstly, deducted against other funding obligations owed by the subsidiary, and secondly, to the extent that it is not so deducted, it will be treated as a funding obligation owed by the Company to the subsidiary.

h. Inventories

Finished goods

Inventories are measured at the lower of cost and net realisable value. Costs are assigned on a first-in first-out basis. Cost comprises all costs of purchase and conversion and an appropriate proportion of fixed and variable overheads, net of settlement discounts. Net realisable value represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale.

i. Receivables

Trade accounts receivables and other receivables represent the principal amounts due at reporting date plus accrued interest and less, where applicable, any unearned income and provision for doubtful accounts.

j. Borrowings

Bill facilities and bank overdrafts are recognised in the financial statements on the basis of the nominal amounts outstanding at the reporting date plus accrued interest. Borrowing costs are recognised as an expense in the statement of comprehensive income in the period in which they are incurred.

k. Property, Plant and Equipment

Property, plant and equipment are included as cost less where applicable any accumulated depreciation and impairment loss. Assets in plant and equipment (except for capitalised leased assets) are depreciated on a straight line basis over their estimated useful lives covering a period of three to six years.

Note 2. Summary of Significant Accounting Policies (continued)

On disposal of an item of property, plant and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognised as a gain or loss.

l. Intangibles

i. Goodwill

Goodwill, representing the excess of the cost of acquisition over the fair value of the identifiable net assets acquired, is recognised as an asset and not amortised, but tested for impairment annually and whenever there is an indication that the goodwill may be impaired. Any impairment is recognised immediately in the statement of comprehensive income.

ii. Brand Names

Brand names are recognised as an asset and are tested for impairment annually. Whenever there is an indication that the brand names may be impaired any impairment is recognised immediately in the statement of comprehensive income.

m. Impairment Of Assets

At each reporting date, the consolidated entity reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of comprehensive income. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives. Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

n. Contingent Liabilities

A contingent loss is recognised as an expense and a liability if it is probable that future events will confirm that, after taking into account any related probable recovery, an asset has been impaired or a liability incurred and, a reasonable estimate of the amount of the resulting loss can be made.

o. Short Term Employee Benefits

Short term employee benefits are employee benefits (other than termination benefits and equity compensation benefits) which fall due wholly within 12 months after the end of the period in which employee services are rendered. They comprise wages, salaries, social security obligations, short-term compensation absences, profit-sharing and bonuses payables within 12 months and non-mandatory benefits such as medical care, housing, car and service goods.

The provision for employee entitlements to wages, salaries and annual leave represents the amount that the Group has a present obligation to pay resulting from employee services provided up to reporting date. The provision has been calculated after taking into consideration estimated future increases in wages and salaries and past experience regarding staff departures and includes related on-costs.

The undiscounted amount of short-term benefits expected to be paid is recognised as an expense.

p. Long Term Employee Benefits

Long term employee benefits include long-service leave, long-term disability benefits, deferred compensation and profit sharing and bonuses payable 12 months or more after the end of the period in which employee service are rendered.

During the financial year ended 28 June 2009 and in prior years, selected executives were offered participation in the Deferred Employee Share Plan ("DESP"). Details of the DESP are set out in Note 29 to the financial statements. These benefits are measured as the present value of the estimated future cash outflows to be made by the consolidated entity in respect of services provided by employees up to reporting date and are recognised as an expense.

q. Events after the Reporting Date

Assets and liabilities are adjusted for events occurring after the reporting date that provide evidence of conditions existing at the reporting date.

r. Cash and Cash Equivalents

Cash and cash equivalents comprise:

i. cash on hand and at call deposits with banks or financial institutions, net of bank overdrafts;

ii. investments in money market instruments; and

iii. cash in transit.

s. Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

t. Customer loyalty programs

The company and the group operate a customer loyalty scheme. The scheme provides for rebate vouchers to be issued to customers twice yearly, based on customer's purchases during the loyalty period. The vouchers have expiry dates six weeks after issue. The company and the group allocate a portion of sales revenue to the liability for customer loyalty based on the historical redemption rate. The deferred portion is only recognised as revenue only after all the rebate obligations have been fulfilled.

u. Issued capital

Issued capital is recognised at the fair value of the consideration received by the company. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

Note 2. Summary of Significiant Accounting Policies (continued)

v. Share-based payment arrangements

Goods or services received or acquired in a share-based payment transaction are recognised as an increase in equity if the goods or services were received in an equity-settled share based payment transaction or as a liability if the goods and services were acquired in a cash settled share based payment transaction.

For equity-settled share based transactions, goods or services received are measured directly at the fair value of the goods or services received provided this can be estimated reliably. If a reliable estimate cannot be made the value of the goods or services is determined indirectly by reference to the fair value of the equity instrument granted.

Transactions with employees and others providing similar services are measured by reference to the fair value at grant date of the equity instrument granted.

Refer to Note 29 for information about share-based payment arrangements, how the fair value of goods or services received and the fair value of equity instruments granted were determined and the effect of the transactions on statement of comprehensive income and statement of financial position.

w. Adoption of new and revised accounting standards

During the current year the company adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operation which became mandatory.

The adoption of the applicable standards and their effect on the financial statements is described below:

i. New accounting standards applicable in the current period

AASB 101 'Presentation of Financial Statements'
AASB 101 (effective 1 January 2009) had changed the presentation and terminology of the primary financial statements.

The amended standard has also changed how an entity presents changes in equity and reports those changes. This change has had no impact on Noni B Limited.

AASB 8 'Operating Segments'
AASB 8 has not had an impact on Noni B Limited. The reporting that is regularly reviewed by the entity's chief operating decision maker is based on one operating segment – Australia and is in the form of a consolidated set of accounts each month.

ii. New accounting standards for application in future periods

The AASB has issued new and amended accounting standards and interpretations that have mandatory application dates for future reporting periods. None of these standards have any impact on Noni B Limited.

AASB 2009-5 Amendments Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project
AASB 2009-5 results from the International Accounting Standards Board's annual improvements project. The annual improvements project provides a vehicle for making non-urgent but necessary amendments to accounting standards.

The amendments to some Standards result in accounting changes for presentation, recognition or measurement purposes, while some amendments that relate to terminology and editorial changes are expected to have no or minimal effect on accounting. The subjects of the principal amendments to the Standards are set out in the preface to the standard.

AASB 2009-10 Amendments to Australian Accounting Standards – Classification of Rights Issues
The amendments clarify that rights, options or warrants to acquire a fixed number of an entity's own equity instruments for a fixed amount in any currency are equity instruments if the entity offers the rights, options or warrants pro rata to all existing owners of the same class of its own non-derivative equity instruments.

x. Rounding of Amounts

The parent entity has applied the relief available under ASIC Class Order 98/100 and accordingly, amounts in the financial report and directors' report have been rounded off to the nearest $1,000.

y. Comparative Figures

Where required by accounting standards, the reclassification of comparatives has been performed in order to conform to the changes in presentation for the current financial year.

a. Impairment Disclosures

As both the brand names and goodwill do not generate cash flows directly, they are allocated to the Company's cash generating unit, which comprises the Company's stores as a whole group as the stores benefit from the synergies of being one group and are managed as such.

The recoverable amount of the cash-generating unit is determined based on the value-in-use calculations. Value-in-use is calculated based on the present value of cash flow projections over a 5-year period using an estimated growth rate. The cash flows are discounted at the beginning of the budget period.

The following assumptions were used in the value-in-use calculations:

- Growth Rate 3%
- Discount Rate 15%

Management has based the value-in-use calculations on budgets. These budgets use historical weighted average growth rates to project revenue. Costs are calculated taking into account historical gross margins as well as estimated weighted average inflation rates over the periods which are consistent with inflation rates applicable to Noni B Limited. Discount rates are pre-tax and are adjusted to incorporate risks associated with Noni B Limited.

Note 15. Issued Capital (continued)

a. Capital risk management

The group debt and capital includes shareholders funds and financial liabilities, supported by financial assets.

Directors effectively manage the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues. During the year ended 28 June 2009, the company commenced a policy of on-market buyback of shares which was part of the process of improving the efficiency of the statement of financial position through modest gearing and increasing earnings per share. After buying-back 448,287 shares at an average of $1.72 per share, the company ceased any further buyback.

For information on the company's financing and debt facilities, refer to Note 27.

There have been no changes in the strategy adopted by management to control the capital of the group since the prior year. This strategy is to ensure that the group's gearing ratio remains below 25%. The gearing ratios for the year ended 27 June 2010 and 28 June 2009 for the consolidated group and company are as follows:

	Note	27 June 2010 $'000	28 June 2009 $'000

Note 16. Financial Instruments

a. Financial and capital risk management

Financial Risk Management Policies

The Group's principal financial instruments comprise receivables, payables, cash and short-term deposits and short term borrowings. These activities expose the Group to a variety of financial risks: market risk, i.e. (interest rate risk, currency risks and price risk), credit risk and liquidity and cash flow risk.

The Board fulfils its corporate governance and oversight responsibilities by monitoring and reviewing the integrity of financial statements, the effectiveness of internal financial control and the policies on risk oversight and management. The Board manages the different types of risks to which the Group is exposed by considering risk and monitoring levels of exposure to interest risk and by being aware of market forecasts for interest rates. Ageing analyses and monitoring of specific credit allowances are undertaken to manage credit risk. Liquidity risk is monitored through general business budgets and forecasts.

The Board's overall risk management strategy seeks to assist the group in meeting its financial targets whilst minimising potential adverse effects on financial performance.

Management operates under policies approved by the board of directors. Risk management policies are approved and reviewed by the Board on a regular basis.

The consolidated entity does not engage in any significant transactions that are speculative in nature.

b. Market Risk

i. Interest Rate Risk

The majority of Noni B's assets and liabilities are non-interest bearing and as a result, fluctuations in the prevailing levels of market interest rates would have minimal effect.

Exposure to interest rate risks on financial assets and liabilities are summarised as follows:

Interest rates on finance leases and commercial hire purchase agreements are fixed for the terms of the contracts and are not subject to changes in market interest rates. All borrowings were fully repaid during the financial year therefore there is nil exposure (2009: $30,000) for each 1% increase/decrease in market interest rate.

ii. Foreign Exchange risk

The group has no direct exposure to foreign currency risk.

iii. Price risk

The group has no direct exposure to any material equity securities or commodity price risk.

c. Credit Risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis.

Note 16. Financial Instruments (continued)

The maximum exposure to credit risk, excluding the value of any collateral or other security, at reporting date for recognised financial assets is the carrying amount, net of any provisions for impairment loss, as disclosed in the statement of financial position and notes to the financial statements.

The company does not have any material credit risk exposure to any single debtor or group of debtors under financial instruments entered into by the company.

Current trade account receivables are non-interest bearing loans and are generally on 45 day terms.

Only an insignificant amount of trade receivables at reporting date is past due. Per Note 7 the Group has made no provision for impairment loss (2009: $31,000) for past due balances.

d. Liquidity and cash flow risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The tables below analyse the Group's financial liabilities, net and gross settled derivative financial instruments into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

		3,463	8,128	227	3,511	15,329

e. Net Fair Values

The carrying amounts of financial assets and liabilities as shown in the statement of financial position approximate their fair value.

f. Defaults and Breaches

During the financial year ended 28 June 2009, the company was in breach of its covenants relating to its bank facility. Subsequently, the bank waived this breach, and the company established a new facility with the bank. The company then negotiated a new agreement with a different bank. All facilities under both arrangements have been repaid in full.

Note 29. Employee Equity-Based Benefit Arrangements

Employee Option Plan

No share options were granted to senior management during the years ended 27 June 2010 or 28 June 2009.

Employee Share Plan:

The Company has an Employee Share Plan and the following is a summary of its principal terms:

- Any employee of the Company with at least twelve months service (or a lesser period) at the Board's discretion, is eligible to participate in the Employee Share Plan and may do so at the invitation of the Board.
- Shares may not be issued under the Employee Share Plan if the sum of planned shares to be issued added to the total of issued shares on hand in the previous year, including options issued under an employee option plan exceeds 5% of the total number of ordinary shares issued by the Company at that time.
- The issue price for Plan Shares is determined by the board but will be set at least as high as the market value of the Shares in the Company at the date of offer.
- The Company may offer to provide loans (or such other financial assistance as the Board may from time to time determine) to Eligible Share Plan Employees to enable them to acquire Plan Shares.
- All Plan Shares will rank equally with all other Shares for the time being on issue.
- The repayment date for the loans is ten years from the date of the loan being made subject to continued employment with the Company.

Note 29. Employee Equity-Based Benefit Arrangements (continued)

At 27 June 2010, 30,000 ordinary shares were held under the scheme (2009: 30,000).

Deferred Employee Share Plan ("DESP")

The Board considers the motivation, retention and performance of executives of Noni B and its subsidiaries to be important to the achievement of the Company's long term objectives.

Accordingly the Company has a plan for employee incentives in the form of a Deferred Employee Share Plan ("DESP") for senior executives.

DESP

The following is a summary of the principal terms of the plans since inception on 22 July 2005:

- The Plan is facilitated by a Trust under which the Plan Trustee holds ordinary shares on trust for the participants on the terms of the Plan.
- Executives and other employees including non-executive Directors of the Company will be eligible to participate in the Plan as determined by the Board in its absolute discretion.
- Senior executives can sacrifice a portion of their current year cash bonus entitlement.
- Shares may be allocated to eligible employees as part of their annual bonus or remuneration package.
- Shares can be offered by way of grants to executives based on a range of service and/or performance conditions as specified by the Board.
- Directors can participate only by way of sacrificing Directors' fees.
- Shares will be acquired on-market by the Trustee via trading on the ASX, other purchases or from a new issue of shares.
- The shares acquired under the Plan will normally be held on trust by the Trustee until the shares have vested with the particular participant subsequent to satisfaction of any performance and/or criteria and an application for withdrawal has been accepted by the Company.
- Participants are entitled to receive any dividends or other distributions or entitlements made in respect of shares held by the Plan Trustee for the participant's benefit.
- Participants are also entitled to participate in any rights and bonus issues but not in any dividend reinvestment plans.
- Participants may also direct the Plan Trustee to vote shares held on trust for the participant but the Plan Trustee is not entitled to vote on any resolution where voting is by show of hands.

The fair value at grant date is independently determined using a Binominal Approximation Option Valuation Model that takes into account the exercise price, the term of the rights over shares, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the rights over shares.

Independent Auditor's Report
to the Members of Noni B Limited

Chartered Accountants
& Business Advisers

Report on the Financial Report

We have audited the accompanying financial report of Noni B Limited, which comprises the statement of financial position as at 27 June 2010, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, a summary of significant accounting policies, other explanatory notes and the directors' declaration for the consolidated entity. The consolidated entity comprises Noni B Limited and the entities it controlled at the year end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the Noni B Limited are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1 the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that compliance with Australian Equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's Opinion

In our opinion:

a. the financial report of Noni B Limited is in accordance with the *Corporations Act 2001*, including:
   i. giving a true and fair view of the consolidated entity's financial position as at 27 June 2010 and of its performance for the year ended on that date; and
   ii. complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.

b. The financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included under the heading 'Remuneration Report' in the Directors' Report for the year ended 27 June 2010. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of Noni B Limited for the year ended 27 June 2010, complies with section 300A of the *Corporations Act 2001*.
